CONGRATULATIONS TO KINDERGARTEN St. Rochus Jülich

Dear children, parents, staff and management of Kindergarten von St. Rochus as well as the kind parishioners of the Parish of St. Rochus.

We appreciate that your children learn about the value and problems of drinking water.

We are glad to hear that you bake and sell cakes for the water project of Batang Pinangga, through the initiative of Helga and Dr. Jochen Range of Aktion Wasserbueffel e.V. Right from the beginning Batang Pinangga's source of water is very limited. The children have to fetch water from a nearby river, which is not sanitary.

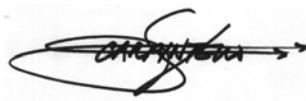

Now Batang Pinangga is given the access to the main source in a neighbor barangay Hagnaya, which is about two kilometers. Getting this water is costly but a necessity.

With your help, the children in Batang Pinangga, as well as a portion of the local community in Triumfo, could have a stable water supply.

That is the best gift you could give the children here for a lifetime.

Thank you dear parents for your children.

Warm greetings of solidarity and friendship,

Butch Carpintero
Executive Director-Batang Pinangga Foundation, Inc.
